Wiley Practitioner's Guide To GAAS 2013: Covering All SASs, SSAEs, SSARs, And Interpretations

Synopsis

The clearest, easiest-to-use guide to understanding GAAS 2013 on the marketâ”fully updated This latest resource to understanding GAAS addresses the toughest part of the jobâ”identifying, interpreting, and applying the many audit, attest, review, and compilation standards relevant to a particular engagement. The only GAAS reference organized according to practitioners’ actual use of the Statements on Auditing Standards (SASs), inside you’ll find examples and illustrations for testing internal controls, techniques for remaining compliant with each standard, and explanations of the reasons for each pronouncement. A brief identification of each SAS, SSAE, and SSARS, with its effective date and tips on when to apply it A convenient and comprehensive glossary of official definitions, which are usually scattered throughout a standard Behind-the-scenes explanations of the reasons for each pronouncement and brief explanations of the basic ideas of the section Concise listing and descriptions of each standard’s specific mandate Easy-to-read capsule summary of interpretations, plus selected AICPA practice alerts and advisories Helpful techniques for remaining compliant with each standard Examples and illustrations for testing internal controls Wiley Practitioner’s Guide to GAAS 2013 presents each statement individually, explaining how the standards are related and offering guidance on the entire engagement process in the form of practice notes, checklists, questionnaires, and real-world examples that illustrate how the fundamental requirements of each section are applied.

Customer Reviews

I purchased this used and it was not is perfect condition, but was really very good and I wasn’t

skeewed out when using it (I usually don't buy used things but this book is darn expensive for a one time use for CPE). That said, it is a really good, all inclusive book. I have used previous editions as well. I would definitely buy again.

This book is a very good reference for Auditing Standards. The language & examples can simplify standards. The product was delivered within a reasonable time. I liked to have such a reference.

I just received this book and this is really guide us to be a prof. Practitioner. If you would like this book hurry up order now. Thank you .

I have an auditing class and I love this book. I do not need to search auditing standards for the relevant topic. It is easy to understand!
