## Customer Reviews

it was awful. the whole point of this is impossible to understand since every book is a bunch of stupid ideas thrown together with no point or end. the next book features a freaking bunny?!? also evil scientists the aether that does not exist gandalf getting the dragon egg for no reason enderbrine ender zombies fainting from having a conversation.

I chose my rate because this book was good. I liked it because I love minecraft and this makes me

want to read and play more minecraft games and books. I recommend this book to anyone who likes or loves minecraft.

Do not buy these books, each one takes five minutes to read, also I am on book ten and this person still hasn't ended it, and I don't think they ever will. So do not buy it is a scam.

Relatively short but it was a good story! I recommend it for all minecraft fan under 15! I liked it, and you should too!
