Customer Reviews

Did not give the line-by-line guidance & explanation for filling out Schedule C that I wanted & needed, so I finally just gave up in total frustration and sent all my files and paperwork to my expensive Chicago CPA! Wished that I'd never even begun a small business. To my total amazement, I'm starting to agree with Senator Ted Cruz about eliminating the entire IRS Agency & having a single flat tax rate & and a simple return that could be completed on the back of a postcard!!!

The book was just a description of the current tax return. It gave few strategies for minimizing taxes and helping readers

It was easy to understand, helped answer many of my questions. Emphasized important points that probably confuse a lot of people. I have recommended it to friends.

Very helpful for my business.

Good book

this book was well written and useful. It answered a lot of questions and directed me to other places I can find answers.
