Customer Reviews

The price was fine but the quality and the condition of the book, although it was supposed to be like new, were not as satisfying as I was expecting, it was just okay. On the other hand, the seller was really nice and he gave me a total refund.

Este libro lo compre para leerselo a mi hija de 5 años y a ella le encanta la serie de Narnia. El libro es suficientemente simple para su edad y pudo seguirlo sin problemas. Mi única queja que es parte del texto, en general los diálogos están traducidos al español de España. Dado que yo vivo en Argentina hubiese preferido más un español neutro o Latino.

Like several other reviewers mentioned, this is a fantastic book to read when you first learn Spanish. I read this book as my first full novel in Spanish. The great story kept me plowing through the piles of new vocabularies and unfamiliar sentence structures. I recall my reading speed had improved at least 10x from the beginning of this book to the end of this book. Of course, I was still reading very slowly by the end of this book, however, to be able to read a full novel in Spanish boosted my confidence in learning this new language tremendously. By the way, I also used the English version as a crutch, and it was very helpful for learning the Spanish grammars.

I use this book with the same title in English for English as a Second Language instruction. It works for teaching Spanish, too. To improve your vocabulary and sentence structure, read each paragraph in the unfamiliar language, then check your understanding from the copy written in your native language.

I like this edition as the print is large enough to help me learn Español.

I read these as a child and my mom had not had the opportunity to read them. So I was really happy when I found them in Spanish and she was able to enjoy them like me.
